

## Vegetation Trimming and Removal

January through March 2017

JCP&L services more than one million electric customers throughout New Jersey and operates and maintains thousands of miles of electrical conductors in order to provide safe and reliable electric service to those customers. Maintaining these lines requires, among other things, the routine trimming and removal of vegetation on a cyclical basis, determined by JCP&L in accordance with applicable regulations, in order to avoid or reduce service interruptions to JCP&L customers within our community as a result of vegetation interference with those lines. Experience has shown that regular, diligent, and professional vegetation management practices assist in reducing the number of service problems and outages that customers experience.

During the first quarter, JCP&L contractors will be performing line clearance tree trimming in our community along Company rights-of-way. This work will include the routine trimming of limbs to provide four (4) years of clearance from electric wires, selective removal of limbs overhanging the electric conductors, and removal of hazard trees that pose an imminent risk to electric facilities. All tree removals are performed in accordance with JCP&L's easement rights or otherwise with the written consent of the property owner.

JCP&L contractors are qualified line clearance tree workers trained in OSHA safety standards, as well as in proper pruning techniques developed by the National Arborists Association. Contracted tree crews will be following a pruning technique that is often referred to as directional or lateral pruning.

Attached is a listing of streets that will be affected by the trimming. About two (2) weeks prior to the start of line operations, additional notice will be provided regarding this planned work. Please contact Robert Lee, Manager-Forestry, at 973-401-8807 if you have any questions or concerns.

**AREAS TO BE TRIMMED**

SUBSTATION	MUNICIPALITY	STREET NAME
COLONIAL OAKS SUB	SPOTSWOOD BOROUGH	2ND ST
